

PREPARING A WILL: A Precious Right Not to Be Ignored

Although most of us know better, many of us are procrastinators. Some people mistakenly believe they have good reasons for not having a will, and simply never get around to it.

Reportedly more than half of the more than two million Americans who pass away each year do not have wills. To ignore or relinquish this privilege is to allow the state's laws of descent and distribution to determine how your remaining property will be distributed. And the state's plan may be considerably different than what you had in mind. Don't you want to decide for yourself?

Phoebe Ministries is embarking on a new mail program to provide educational information about wills to many residents and donors on a quarterly basis. This literature provides a simple and concise explanation of the key things you should know about wills.

Having a will is your right and privilege. Why not exercise this wonderful freedom? **For more information, or to be sure you receive these mailings, contact: Phoebe Ministries, Office of Institutional Advancement Staff, 1925 Turner Street, Allentown, PA 18104. Phone: 610-794-5132. ■**
